

Aqualife Reverse Osmosis System

Quality You Can Taste

Aqualife's advanced Reverse Osmosis (RO) system removes up to 99% of bacteria, viruses, chlorine, and heavy metals—delivering crystal-clear, great-tasting water on demand.

Overview Our Product Benefits Our Treatment System

FAQ: Is RO Water Safe?

Yes—our semi-permeable membranes remove 99% of dissolved solids and harmful pathogens. The result is pure, refreshing water that's safe for daily drinking.

How Reverse Osmosis Transforms Contaminated Water Into Purity

As water enters the pipe, it carries impurities such as bacteria, viruses, and particles. The membrane acts as a barrier, allowing only clean water molecules to pass through, while trapping contaminants and pollutants. This process ensures that the water exiting the system is filtered and safe to use, effectively removing various pollutants and producing clear, clean water.

Not just water filtration, but a healthier future.

ONYX WATER DISPENSER

The Onyx Water Dispenser is the perfect solution for a fast paced and health conscious lifestyle. Equipped with advanced filtration technology and four temperature options cold, room temperature, warm, and hot, it lets you enjoy pure, clean water in seconds.

AQUILLA 500G

The Onyx Water Dispenser is the perfect solution for a fast paced and health conscious lifestyle. Equipped with advanced filtration technology and four temperature options cold, room temperature, warm, and hot, it lets you enjoy pure, clean water in seconds.

Benefits of Using a Reverse Osmosis System

99% Contaminant Removal

Eliminates bacteria, viruses, chlorine and heavy metals.

Better Taste & Odor-Free

Filters out unpleasant flavors and smells.

Health & Hydration

Supports overall well-being with pure drinking water.

Compact, Modern Design

Fits seamlessly under sinks or on countertops.

Cost-Effective & Eco-Friendly

Reduces bottled-water expenses and plastic waste.

Reliable & Easy to Use

Simple installation and hassle-free maintenance.

Balanced pH & Rich in Minerals

Restores healthy calcium and magnesium for smoother taste and better hydration.

Why Choose Aqualife RO for Drinking Water?

On Demand Purity

Instant access to filtered water, no boiling, no bottles

Peace Of Mind

Industry-leading membrane technology for your family's health

Save Money & Planet

Say goodbye to single-use plastics and high utility bills.

Find the Best RO Drinking Water for Your Needs

Onyx Water Dispenser

Specification

Temp Options Ambient/5-8°C/95°C

Source Water Tank 5L

Pure Water Tank 2L

Cold Water Flow Rate 2.2L/Hour

Product Size 500*300*450mm

Purification Stage 5 Stage Purifications

RO Membrane Spec 100 Gallons (1 Gallon=3.8L)

Applicable Voltage 220/110V

Warranty 12 months
